Podowell Shoe Stand

Better display your Podowell shoes and get the attention they deserve from your clients.

Easy to assemble and light-weight, add it to your next order!

Varomed Fitting Guide

Take measurement barefoot standing upright. Take the length from heel to toe, add 5 – 7 mm, then look for the next highest number in the corresponding chart. The circumference should be measured in the ball of the foot.

Comfort, prevention and protection
Confort, prévention et protection

- Provides soft resilient padding, between, under or on top of the toes.
- Prevents friction between toes
- Helps protect corns, calluses, and irritated areas.
- Helps to prevent blisters.
- Used to pack the toe area of ballet shoes.

- Fournit un rembourrage doux et résilient entre, sous ou par-dessus les orteils.
- Empêche la friction entre les orteils.
- Aide à protéger les cors, les callosités et les endroits irrités.
- Aide à éviter les phlyctènes.
- Utilisée pour remplir la zone des orteils des chaussures de danse.

Directions:

- Take required length of wool
- Tease it out to form a long rope
- Twist the rope between/around the toes protecting the affected areas.

Attention: do not bind the toe too tight as this may restrict blood flow.

Mise en garde : ne liez pas les orteils de façon trop serrée, car cela pourrait nuire à la circulation sanguine.
